KEY ACCOMPLISHMENTS

Accelerated implementation by over 14% at Seegrid by designing an interactive mapping and route planning feature.

Reduced user errors by 6% through system-wide interface improvements and component-level refinement.

Unified 8 enterprise applications at Honeywell under a new design system, enhancing product cohesion.

Strengthened design-engineering collaboration by encouraging a more fluid co-creation process.

SKILLS

Technical

Adobe CC, Confluence, Figma, Generative AI, HTML/CSS, JIRA, Miro

Design

Agile UX, Design Systems, Design Thinking, Fast Prototyping, Information Architecture, Product Design, Research, Responsive Design, Service Design, Usability Testing, User Centered Design, User Interface/Experience Design

Collaboration

Communication, Mentorship, Product Strategy, Stakeholder Feedback, Team Building

EXPERIENCE

UX Consultant - Clemenger Labs

Dec 2025 - Present | Pittsburgh, PA

- Providing product design consultation services to startups and designers

Senior Product Designer - Seegrid Robotics

Oct 2023 - Oct 2025 | Pittsburgh, PA

- Co-led design for Seegrid's autonomous vehicle management platform, launching 3 new features.
- Drove 14% faster customer installations by introducing a new interactive facility mapping and route planning feature.
- Reduced user errors by 6% through UI refinements.
- Partnered with internal customer-facing teams to streamline end-to-end product touchpoints and improve field adoption.

UX Designer - Honeywell Safety & Productivity Services

May 2020 - Dec 2022 | Pittsburgh, PA

- Designed user interfaces, data flows, and information architecture for Honeywell's enterprise-level automation suite.
- Enhanced user outcomes by optimizing large data-table interactions and introducing KPI-driven dashboards.
- Strengthened client partnerships through design reviews and co-creation sessions, leading to faster validation cycles.

Communication & Web Designer - Carnegie Mellon University

Nov 2006 - May 2020 | Pittsburgh, PA

- Increased engagement and event attendance by 8% through strategic print and digital communication campaigns.
- Designed and managed 12 departmental websites to improve content accessibility.

PROJECTS

Go Together (Personal), Mobile UX Design

July 2019 - Feb 2020

- Defined interactions for co-creating nuanced travel itineraries and simplifying decision-making through a mobile app

FunHaler (Academic), UX, Service Design, & Research

January - May 2017

- Addressed the stigma of childhood asthma by designing a service that empowers children to customize inhaler skins

EDUCATION

Master of Professional Studies (MPS) in Design for Interactions

Carnegie Mellon University, 2018

Bachelor of Science (BS) in Multimedia & Web Design

The Art Institute of Pittsburgh, 2004
